How to Add a Floating WhatsApp Button to Your Website

Editing & Managing Your Website · https://thewebops.com/ar/help-center/editing-managing-your-website/how-to-add-a-floating-whatsapp-button-to-your-website/

In this guide, we'll show you how to add a floating WhatsApp button using **Click to Chat**, a popular and free WordPress plugin. The setup takes just a few minutes and requires no coding.

Prerequisites

Before you begin, make sure you have:

- Access to your WordPress Admin Dashboard.
- Your WhatsApp phone number is ready.

Step 1: Go to the Plugins Section

1. Log in to your WordPress Dashboard.
2. From the left-hand menu, click **Plugins**.
3. Click **Add Plugin** at the top of the page.

Step 2: Install the Click to Chat Plugin

1. In the search bar, type **WhatsApp**.
2. Locate the plugin named **Click to Chat**.
3. Click **Install Now**.
4. Once installed, click **Activate**.

Step 3: Open Click to Chat Settings

1. In the WordPress Dashboard menu, find **Click to Chat**.
2. Click it to open the plugin's settings page.

Step 4: Set Up Your WhatsApp Number

1. In the **Phone Number** field:

- Select your country from the dropdown list.
- Enter your WhatsApp number **without spaces or special characters**.

2. This number will be used for all chats initiated from your website.

Step 5: Choose a Button Style

1. Scroll to the **Button Style** or **Appearance** section.
2. Select one of the available floating WhatsApp button designs.
3. Preview the styles and choose the one that best fits your website's look.

Step 6: Save Your Settings

1. Click **Save Settings**.

That's it!

The floating WhatsApp icon will now appear on your website.
