How to Create an Account and Sign In

Getting Started · https://thewebops.com/ar/help-center/getting-started/how-to-create-an-account-and-sign-in/

1. Navigate to the WebOps Website

Go to thewebops.com.

Click **"Start for Free"** or any call-to-action to be redirected to
https://app.thewebops.com,
where you can access the dashboard and start building your website.

Select one of the Sign-Up Methods

Below is a breakdown of each option.

A. Sign Up with Google

1. **Click the Google Icon:** On the sign-up page, select the Google icon.
2. **Select Your Google Account:** If you're logged into multiple Google accounts, choose the one you want to link.
3. **Grant Permissions:** Review and allow the requested permissions for WebOps to proceed.
4. **Account Creation Complete:** You'll be redirected to your new WebOps dashboard if everything is successful.

Why Choose This Method?

- Faster login (no need to remember a separate password).
- **Secure sign-in managed by Google.**

B. Sign Up with Facebook

1. **Click the Facebook Icon:** Select the Facebook icon on the sign-up page.
2. **Log into Facebook:** If you aren't already logged in, enter your Facebook credentials.
3. **Grant Permissions:** Approve the access requested by WebOps.
4. **Account Creation Complete:** You'll be redirected to your WebOps dashboard once the process is confirmed.

Why Choose This Method?

- **Quick account creation.**
- **Convenient if you're frequently logged into Facebook.**

C. Sign Up with Email

1. **Enter Your Full Name:** Provide your first and last name.
2. **Type Your Email:** Make sure to use a valid, accessible email address.
3. **Create a Password:** Choose a strong password you can remember.
4. **Click "Sign Up":** After clicking, you will be redirected to a screen where you can enter your WhatsApp or phone number for verification, or choose to skip this step.
5. **Verify Your Account:** You will receive a One-Time Password (OTP) on your WhatsApp. Enter the OTP to confirm your account.
6. You can also choose to receive the One-Time Password (OTP) via SMS.

Why Choose This Method?

- Ideal if you prefer not to link social accounts.
- Keeps all WebOps-related communications in one place.

Pro Tip: Make sure your WhatsApp number is active and accessible during sign-up.

2. After Sign-Up

No matter which method you choose, you will be redirected to create your first website.

From here, you can:

- **Build Your First Website:** Use AI to generate a website in minutes.
- **Explore Platform Features:** Customize pages, set up e-commerce, or get and connect a custom domain.
- **Manage Account Settings:** Update profile information, change your password, or modify billing preferences.

3. Troubleshooting Tips

- **Didn't Receive Verification Email?** Check your spam folder or click "resend" on the confirmation screen.
- **Login Issues:** Make sure you're using the correct social account or email. If you forgot your password, click "Forgot Password?" to reset it.
